

# PICK NOTES FROM A MAGIC MONEY TREE

Get ready to learn numbers and words, practice maths, and have lots of fun with our game to pick and place notes from a magic money tree!

## What You'll Need:

- First, download and print the Money Tree Notes on paper or stiff card.
- Cut out all 28 notes carefully (ask an adult if you need help).

Each note has a number and a word (like one:1 or 2:two).

## How to Play:

### 1. Set up your game:

- Mix up all the notes and place them face down on the table.

### 2. Decide who starts:

- Everyone picks up one note. Add the two numbers on your note together.
- The person with the highest total goes first! If there's a tie, pick again.
- Play moves clockwise around the table.

### 3. Number of players:

- The game is great for 2, 3, or 4 players!

### 4. Share the notes:

- Take turns picking notes from the Money Tree until they are all gone.
- If there are leftover notes, the first one is turned over to become the starting note, and any others are put aside face down.

### 5. Time to play:

- Players take turns placing a note that matches one already on the table. Match by number or word!  
Example: If the note is three:3, you can play any note with three or 3.
- If you can't play, you have to pass (skip your turn).

### 6. Winning the round:

- The goal is to be the first to place all your notes on the table
- If no one can play and the game is stuck, count the value of the notes you have left. The player with the lowest total wins.

### 7. Scoring:

- The winner of the round earns 10 Money Tree Notes as a prize!
- Everyone else loses points equal to the total value of their leftover notes.

## Keep the Fun Going!

- Play as many rounds as you like or set a goal:
- First to win 25 Money Tree Notes becomes the ultimate champion! 🏆
- Or set a timer and see who's ahead when the time runs out.

## Tips for the Magic Money Tree: 🌀

- Think about your numbers and words carefully!
- Plan ahead to play your biggest notes early.
- Have fun learning and matching!

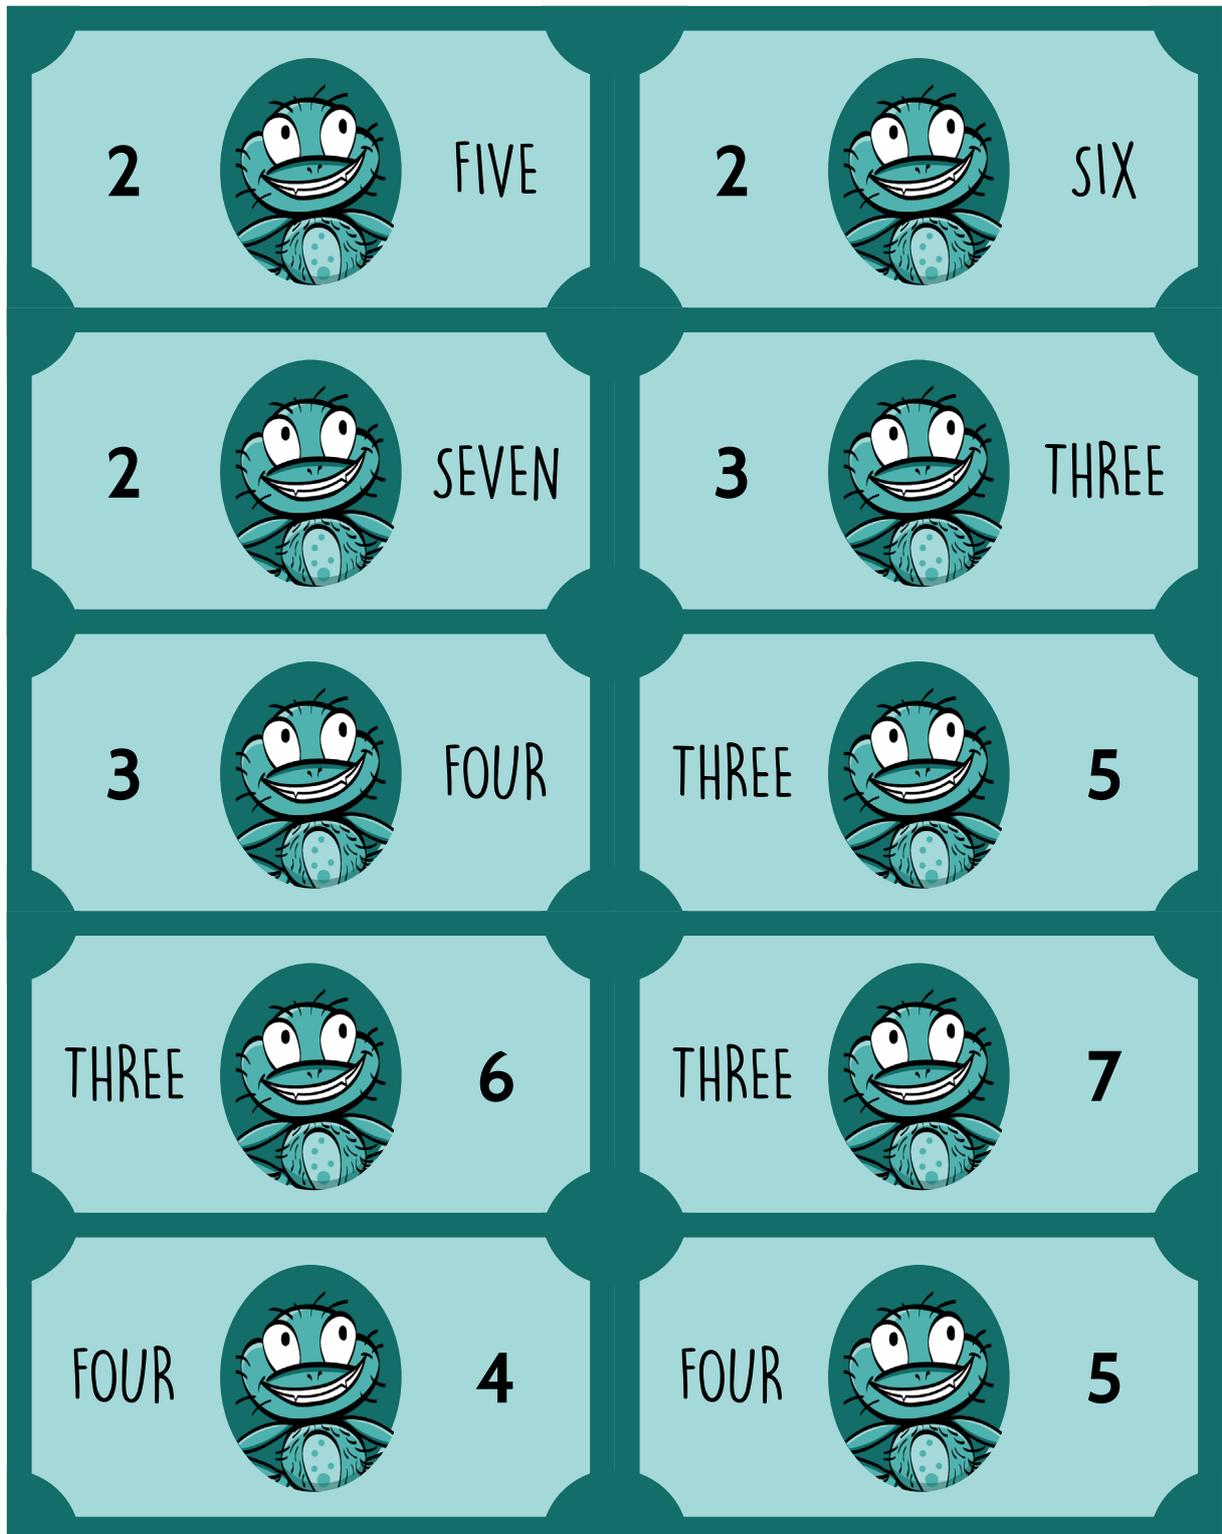

Enjoy the game! ✨
